Location (City, Country):	Duesseldorf, Germany
Year of Construction:	1992
Roof Size:	400 sqm
Building Type:	Industrial
Green Roof Type:	Intensive
Vegetation:	Shrubs, bushes and trees
Architect/Designer:	-
Contractor:	Gartenhof Küsters GmbH, Neuss

"Roof Garden"

This roof garden and large pond are located 20 metres up on the roof of the BMW office building in Düsseldorf. The idea was to create a representative garden which included a 120 m² miniature lake around a penthouse suite on the roof of the BMW branch office, near the centre of Düsseldorf.

Conference rooms and offices offer a direct view and access into the greenery. In summer annual plants are planted out to add colour among the permanent landscape of trees, shrubs, perennials and grasses.

Pathways take you through the landscape along the water to a terrace, inviting one to spend a few relaxing moments. The terrace beside the water is not only used for Lunch breaks, but also for open air business meetings
